TECHNICAL SKILLS

Backend & APIs

JavaScript (ES6+), TypeScript, Node.js, Express.js, REST API Design, Authentication (JWT, Cookies, OAuth2), Python (Django, DRF)

Databases

PostgreSQL (Prisma, Sequelize, pgAdmin, Neon), MongoDB (Atlas, Mongoose), SQL & NoSQL design, relational modeling

DevOps & Tools

Docker, Docker Compose, Git (GitHub, GitLab, Bitbucket), CI/CD Pipelines, Postman, Swagger/OpenAPI, Render, AWS

Frontend

React (CRA, Vite), React Router, TailwindCSS, HTML5, CSS3, Styled Components

WORK EXPERIENCE

Software Developer (Backend)

Carus Digital GmbH

10/2022 - 09/2024

Leipzig, Germany

Carus Digital GmbH is a Leipzig-based software company delivering digital solutions for HR, finance, and real estate sectors.

Achievements/Tasks

- Developed core features and resolved critical bugs for a cloud-based HR platform using **Python/Django REST, JavaScript, and PostgreSQL**, improving stability and performance for production users.
- Delivered and maintained **scalable REST APIs**, integrated with React frontends and client-facing modules, ensuring smooth data flow across the platform.
- Partnered closely with **frontend developers** to implement new UI features and debug issues in a **React/JavaScript codebase**, gaining practical experience with modern frontend development.
- Upgraded and modernized a **legacy Django codebase** (3.2 → 3.9), introduced **Poetry** for package management, optimized background workflows with **Celery/Redis**, and reduced technical debt.
- Containerized services with **Docker** and managed deployments with **pgAdmin/PostgreSQL**, ensuring reliable releases.
- Collaborated in **Agile sprints**, translating client requirements into technical deliverables and contributing to code reviews.

Contact: Ralph Manitz - +49 40 561 27 812

Junior Software Developer (Backend)

Wirbauen.digital GmbH

09/2021 - 02/2022

Cologne, Germany

Software company developing mobile and web-based applications for digital documentation and administration of construction projects.

Achievements/Tasks

- Built and maintained backend features with **Django REST**, integrating them into customer-facing web modules.
- Developed and tested **REST APIs**, adding unit and integration tests with **PyTest** to improve reliability.
- Containerized applications using **Docker Compose** and supported automated deployments with **GitLab CI/CD**.
- Contributed to frontend development by collaborating with React developers and fixing JavaScript/React bugs.
- Participated in **Scrum ceremonies** and collaborated in sprint planning, refinement, and daily stand-ups.
- Delivered new features and bug fixes that enhanced stability and usability of the platform.

Contact: Daniel Grube - daniel@wirbauen.digital

EDUCATION

Full-Stack Web & App Development Bootcamp WBS Coding School

05/2025 - 09/2025

Berlin, Germany

Courses

- Delivered multiple **full-stack projects** (e.g., *EventSpark*, *JobFix*) using **React, Node.js, Express, and MongoDB**.
- Applied **Agile practices** in cross-functional teams with Git, GitHub, CI/CD, and code reviews.
- Gained practical experience in **API design, testing (Postman), and UI/UX collaboration** with Figma.
- Explored **AI-assisted development** with tools like **GitHub Copilot, Cursor AI, and Google Gemini**, integrating cloud-based generative AI into full-stack projects.

M.Sc Information and Communications Technology Deutsche Telekom University of Applied Sciences

10/2017 - 06/2021

Leipzig, Germany

Courses

- 2.1 GPA (Good)
- Awarded DAAD Scholarship for academic performance.

PERSONAL PROJECTS

LevelUp — AI-Powered Lifestyle Balance App (07/2025 - 09/2025)

- Collaborating in a 3-person team** using Agile workflow with Trello, Notion, Git, PR reviews, and Figma/FigJam for wireframing and design.
- Built **secure authentication system** (JWT + HttpOnly cookies) with signup/login, password reset via **MailTrap**, and hashed password storage.
- Designed **scalable backend APIs** with Node.js & Express, integrated **MongoDB Atlas** via Mongoose for cloud-based storage.
- Integrated **Gemini AI API** to deliver personalized "AI Coach" recommendations for lifestyle balance.

JobFix — Job Tracking App (07/2025 - 08/2025)

- Developed a **full-stack job tracking platform** with **React (Vite), Node.js, Express, and MongoDB Atlas**.
- Implemented **secure authentication** (JWT + HttpOnly cookies) and profile management with Cloudinary.
- Built **Jobs CRUD APIs** with advanced features: search, filters, sorting, and pagination.
- Designed **analytics dashboard** using **Recharts** to visualize monthly job trends and status breakdowns.

EventSpark — Event Discovery Platform (06/2025 - 08/2025)

- Built a full-stack **event discovery and management platform** with **React (Vite), Node.js, Express, and MongoDB Atlas**.
- Delivered **secure, role-based APIs** (JWT + HttpOnly) with geolocation-based search and personalized AI city guide.
- Designed responsive **UI/UX** with **TailwindCSS, Framer Motion animations, Leaflet/Google Maps integration**, and modern glassmorphism styling.
- Deployed production-ready frontend and backend on **Render**, tested with **Postman** and secured with **Helmet, CORS, Zod validation**.

CERTIFICATES

Udemy — AI for Developers with GitHub Copilot, Cursor AI & ChatGPT (09/2025 - 09/2025)

Explored practical AI collaboration tools for developers to boost coding efficiency.

Udemy — Node.js, Express, MongoDB & More: The Complete Bootcamp (07/2025 - 09/2025)

Comprehensive backend training on Node.js, Express, and MongoDB with REST APIs.

Udemy — The Complete JavaScript Course 2025: From Zero to Expert (01/2025 - 03/2025)

Advanced JavaScript concepts, ES6+, OOP, asynchronous programming, and projects.

Arbeitszeugnis

Herr Paramveer Marwah, geboren am 20. Juni 1993, war vom 10.10.2022 bis 30.09.2024 bei der Carus Digital GmbH als Softwareentwicklerin / IT- Beraterin beschäftigt.

Die Carus Digital GmbH begleitet und berät als strategischer und technischer Partner Unternehmen auf dem Weg in eine erfolgreiche, zukunftssichere digitale Infrastruktur.

Herr Marwah war in unserem Unternehmen in der Abteilung Software Development als Backend-Entwicklerin am Standort Leipzig eingesetzt. Hier arbeitete er in der Backendentwicklung an verschiedenen Kundenprojekten aus der Personal-, Finanz- und Immobilienwirtschaft mit. Zu seinen wesentlichen Aufgaben und verwendeten Technologien gehörten dabei:

- Entwicklung und Integration neuer Features und Funktionen, sowie Fehlerreproduktion und -behebung für eine cloudbasierte HR-Plattform (Python, Django, Django REST, JavaScript, Postgres, Docker, Docker Compose)
- vollständiges Upgrade der Django- und Python-Versionen von 3.2 bzw. 3.9. - Implementierung einer effizienten Paketverwaltung durch Poetry, Code-Refactoring und Optimierung, Aktualisierung wesentlicher Komponenten wie Celery, Redis und der Datenbank zur Erstellung eines Repository auf Bitbucket (Python, Django REST, VSCode, Poetry, Celery)
- Definition von Datenstrukturen, Erstellung von Datenbanktabellen und Sequenzen, Generierung von JPA-Entities, Mapping auf die Datenbanktabellen (Java, SQL, Maven, Spring Boot, JPA)
- Programmierung im Java- / JEE-Umfeld sowie Weiterentwicklung und Implementierung bestehender Funktionalitäten

Herr Marwah verfügt über ein umfassendes und fundiertes Fachwissen, das er jederzeit gut in die Praxis umzusetzen wusste. Er hat sich engagiert in den ihm gestellten Aufgabenbereich eingearbeitet und verfolgte die vereinbarten Ziele nachhaltig. Schwierige Aufgaben ging Herr Marwah mit Elan an und fand dabei schnell praktikable Lösungen, die er mit Erfolg in die Praxis umsetzte. Er war sehr zuverlässig und erwies sich auch bei hohem Arbeitsanfall als belastbarer Mitarbeiter, welcher überlegt, ruhig und zielorientiert vorging.

Seine Arbeitsergebnisse waren, auch bei wechselnden Anforderungen und unter schwierigen Bedingungen, stets von guter Qualität.

Herr Marwah hat seine Aufgaben stets zu unserer vollen Zufriedenheit erledigt und unseren Erwartungen in jeder Hinsicht gut entsprochen. Sein Verhalten gegenüber Vorgesetzten, Kollegen und Kunden war stets einwandfrei.

Herr Marwah scheidet auf eigenen Wunsch zum 30.09.2024 aus unserem Unternehmen aus. Wir bedauern seinen Entschluss und wünschen ihm für seine berufliche wie persönliche Zukunft alles Gute und weiterhin viel Erfolg.

Letter of recommendation

Mr. Paramveer Marwah was employed as Junior Software Developer at wirbauen.digital GmbH from 1st of September 2021 until 31st of January, 2022.

wirbauen.digital is a software development company, with offices in Siegen and Cologne. We develop a mobile and web-based application for the digital documentation and administration of construction projects for construction and planning companies as well as for architects and constructors, both private and public. With a team with years of experience in software development, business management and construction industry, we create an intuitive solution for one of the largest and strongest industries in Germany.

Mr. Marwah's tasks included the following:

- Backend development, using the Django framework
- Software development in Django and React
- Implementation of unit and integration test with pytest
- Part of a Scrum team and participation in refinement and planning meetings
- Worked with Docker (Compose), Gitlab CI/CD and application review systems
- Code & Content Reviews and Pair Programming

During his work at wirbauen.digital, Mr. Marwah's successfully implemented new features and additions to our web-based application for our customers. With his detailed way of working, he always tried to complete his tasks and daily work in the best possible way.

He was always very eager for knowledge in development and gained experience in new areas that he incorporated into his daily work.

TO WHOM-SO-EVER IT MAY CONCERN

This is to certify that Mr. Paramveer Marwah Son of Mr. Surinder Marawah worked as Data Science Intern in our company from 25th October, 2020 to 25th Jan, 2021 with our entire satisfaction. He has worked on Data Science, Machine Learning prediction models and Developed multiple softwares and their GUI's, Django along with Rest API. During his working period we found him a sincere, honest, hardworking, dedicated employee with a professional attitude and very good job knowledge. He is amiable in nature and character is well. We have no objection to allow him in any better position and have no liabilities in our company.

We wish him every success in life.

Sincerely,
Sachin Dabas
